MANMOHAN AGADE

Gondia, Maharashtra | 7249062661 | manmohanagadess@gmail.com | manmohanssagade | Tryhackme

A dedicated and passionate cybersecurity enthusiast with 5 months of experience in bug bounty hunting and web application penetration testing, I have developed a special focus on discovering web application vulnerabilities with a strong focus on OWASP Top 10 risks. I understand the basic and advanced level methodologies of penetration testing, networking, and Linux. I continuously strive to improve by earning certificates like eJPT, OSCP, and WAPT. I would like to contribute to helping organizations improve their security posture through identifying and mitigating vulnerabilities.

EDUCATION

Bachelor of Science in Computer Science | Gondia College
Degree obtained June 2023

- Rashtrasant Tukadoji Maharaj Nagpur University, GPA: 5.6
- Relevant coursework computer science and Reporting

EXPERIENCE

Bug Bounty Hunter
June 2024 – Present

- I have been actively engaged in bug bounty programs, identifying vulnerabilities in web applications and reporting them to organizations.
- This hands-on experience has given me an in-depth understanding of common and advanced security vulnerabilities
- I continue to learn from real-world bug reports and feedback.

SELECTED PROJECT

Rapidscan-master Clone
Oct 2024 – Present

- Developed a clone for Rapidscan—a tool that helps in automating web application security vulnerability scanning.
- This will identify the common issues found on web applications and help to further improve efficiency within security testing while enhancing general workflows related to vulnerability assessments.

TECHNICAL SKILLS

- Programming Languages: Python, Shell Scripting
- Networking
- Operating Systems: Linux (Ubuntu, Kali)
- Tools: Burp Suite, Nmap, Metasploit, Hydra
